

Vanguard Instruments Company, Inc.

DMOM-100/200 S2 Line

The DMOM S2 is Vanguard's third-generation, microprocessor-based, true-DC, micro-ohmmeter product line. The DMOM S2 product line is designed for testing EHV circuit-breaker contact resistances, bushing contact joints, or for any low-resistance measuring application. The DMOM S2 can accurately measure resistances ranging from 1 micro-ohm to 300 milliohms. The DMOM-100 S2 can output a test current from 10 Amperes to 100 Amperes while the DMOM-200 S2 can output a test current from 10 Amperes to 200 Amperes. Both the DMOM-100 S2 and 200 S2 feature a built-in thermal printer.

The DMOM S2 product line has been in production since 2004, and over 400 units have been sold world-wide.
